There are different copayments for different service charges. The following information explains the different types of medical care charges and the related client copayments.

Outpatient Clinic charges are for all non-physician (facility) and physician services received by a client while receiving care in the outpatient clinic setting, but does not include charges from outpatient services provided in the hospital setting (i.e. emergency room care, ambulatory surgery, radiology). Outpatient charges include primary and preventive medical care. The client is responsible for the corresponding Outpatient Clinic Copayment.
